

Park Avenue Bridge Detour

What's Happening?

RIDOT will implement a detour for a portion of Park Avenue (Route 12) in Cranston. Eastbound traffic will be detoured left onto Dyer Avenue, right onto Cranston Street and right onto Gansett Avenue before returning to Park Avenue. Westbound traffic will not be affected. RIDOT will be working to rehabilitate the Park Avenue Bridge which carries the Pocasset river.

When is it Happening?

The detour will begin Monday March 11. RIDOT estimates that the detour will be in place until mid-December 2019. Two way traffic would then resume while the overall construction at the bridge would continue until spring of 2020. Weather or construction related delays could affect this schedule.
